EDUCATION

University of the Philippines Diliman
B.S. Civil Engineering

EXPERIENCE

Swinerton-Staten Solutions, Inc.

May 2024 – Jan 2026

Junior Data & GIS Analyst

- Extracted, analyzed, and mapped CRM and spatial database operational data using Excel and ArcGIS Pro.
- Performed GIS spatial analysis and database quality audits, resolving data inconsistencies prior to reporting.
- Built weekly performance dashboards and spatial reports that directly informed operational and strategic decisions.
- Partnered cross-functionally to streamline repetitive data and GIS workflows, reducing manual handling in routine operations.

Remotasks / DataAnnotation

Mar 2024 – Dec 2024

AI Data Operations Associate

- Evaluated LLM outputs for safety, logical reasoning, factual accuracy, and code correctness.
- Prepared and validated structured datasets across domain-specific guidelines.
- Documented edge cases and edge-case failure patterns to improve RLHF model performance.
- Collaborated with data engineers to refine annotation protocols and feed error analysis into model iteration.

Private Tutoring Practice

2019 – 2024

Academic Tutor – Mathematics & Sciences

- Tutored student Grade 7–12, securing 100% admission success to UP Diliman, Ateneo, and DLSU.
- Designed customized STEM learning plans and transitioned instruction seamlessly to online formats.
- Emphasized deep conceptual understanding and problem-solving mastery over rote memorization.

Concentrix (AT&T Account)

Feb 2022 – Aug 2022

Customer Service Representative

- Resolved complex billing and service issues using Salesforce CRM and systematic troubleshooting.
- Managed customer escalations and analyzed service data to identify recurring system issues.

Primeart Builders Inc.

Jun 2018 – Jul 2018

Assistant to Site Engineer (OJT)

- Supervised QC for structural elements, tiling, plastering, and ceiling work on a 5-storey building.
- Documented daily structural progress and verified fixture installation quality against engineering specs.

TRAINING & PROFESSIONAL DEVELOPMENT

Online Intensive Program

Mar 2024 – Dec 2024

Japanese Language & Nursing Care Training

- Completed rigorous 6-month online program in technical Japanese vocabulary and caregiving protocols.
- Passed Nursing Care Language Evaluation and Nursing Care Skills Test certifications.
- Maintained top program performance while working full-time as a Junior Data Analyst.

SKILLS

Technical	ArcGIS Pro / ArcGIS, GIS Spatial Analysis, Python (Intermediate), Data Analysis, Excel / Spreadsheets, Salesforce CRM, HTML & CSS, Data Quality Assurance
Professional	Project Coordination, Client Relations, Technical Writing, Problem-Solving, Cross-functional Collaboration
Languages	Filipino (Native), English (Fluent), Japanese (A2 – JFT-Basic)

CERTIFICATIONS

- **JFT-Basic Japanese (A2)** • **Nursing Care Language Evaluation (Passed)** • **Nursing Care Skills Test (Passed)**
- **DataCamp Data Engineering Certification (In Progress)**
